Subject: Re: Meeting re Sunnyside Mine Pool

Dear Mr. Holmes:

I have been trying to talk with Mr. Wharton for over six months. Given that at the dinner prior to the Silverton town meeting, it was inferred that bulkheading was the preferred solution of the EPA, and comments such as "If we do somehow have to treat the water, we have plenty of land to do it at Gladstone," were made, a meeting to discuss these matters is necessary. For the record, all of Gladstone is privately owned. The fact that someone would be making a disposition of land privately owned by other parties is way beyond the pale. It was also reported to me that your supervisor made the comment in Silverton regarding me "I hope we don't have a problem there."

Your supervisor needs to be made aware of the Federal and State governments role in creating the Sunnyside mine pool and having it discharge through the neighboring properties. Given the fact that EPA in Leadville dumped 5000 tons of highly reactive dump material down the New Mikado shaft of one of my companies (we are still seeing if EPA actually removes this material, which has its drainage report directly to the Leadville drainage tunnel), plus the fact that the companies I run have been made to suffer further pollution from the actions that created the Sunnyside Mine pool means that we are trying to prevent a third instance of pollution of our properties by the EPA (ie bulkheading).

It is not helpful either, Mr. Holmes, for you to tell the stakeholder group that EPA has made no determination of whether to bulkhead or not, and then within the space of 120 seconds announce to the group that EPA had found good rock in the Red and Bonita Tunnel in order to bulkhead it. There is a real issue of credibility here.

For San Juan Corp.,
Todd C. Hennis, Pres.

Subject: Re: Meeting re Sunnyside Mine Pool

Trying to schedule meetings can sometimes be more challenging than managing mine pools.

Seems like the three of us are the core on any get together so, let me know your availability after Oct. 18, and we'll see if Steve Way or Richard are available.

Mike, I will be traveling out of the country from Oct. 2-15 and will not be back in the office until Oct. 18. I would be happy to meet with Mr. Hennis anytime after that date.

Thanks,
Steve

Mike-

Due to just getting back from work overseas, I can't make the stakeholders meeting today (not really safe to drive that distance on little rest). I am traveling most of next week, but should be available the first week of October. We really need to talk before any pond construction, etc.

Todd Hennis

Well then we should schedule it when they are available.
